

## From anonymous to open authority

**«Gleb Pavlovsky has declared 08.09.04, that political system in Russia  
It is paralyzed and seized by groups of anonymous authority. Everywhere we  
We require development of a policy, and everywhere it is found out, that such  
policy we do not have ... Working system of anonymous authority we further to  
suffer we can not.»**

**«Groups of anonymous authority are any people or groups of people,  
organized in secret or officially not registered the associations having the purpose  
of substitution of imperious functions of the state, it institutes, churches or the  
world community.»**

**«The terrorist is the person belonging to groups of anonymous authority  
or the carrying out order of groups of anonymous authority with application  
military or ideological actions»  
“The definition of terrorism”, Kubarev V.V.**

Has historically developed, that to the first groups of anonymous authority Masonic lodges and the Puritan societies scattered worldwide belong. The owner of the universe elected international of anonyms, actually also supervises over our world. The some people name this system of authority «world government», and in the religious plan it Satanism, embodied Sacred John Bogoslov's Revelation, the first part of a prophecy.

In Russia the first puritan was, probably, Peter the Great. After him on a throne of Russia various masons stayed, chancellors and ministers, members of various Masonic lodges surrounded a throne. Typically funeral sculpture on a tomb of chancellor Beloborodko with the Masonic symbols, belonging, at least, to the master. There bronze books of a Torah, the Bible, the Koran, Alchemy and Sorcery are visible. Then has come it is time to revolutionary changes. Probably, Decembrists were masons illuminate, entered in the contradiction with working structure of the open authority headed by sovereign of other Masonic award, the adherent of orthodox Masonic sights.

In the twentieth century in Russia Bolsheviks have arranged revolution. An overall objective of impact of revolutionaries was a monarchy, Orthodoxy and church. With this problem Lenin's have consulted, having spread atheism, the cousin of Satanizm. Probably, a management of Bolsheviks also were masons illuminate, basic which core of ideology was introduction in revolutionary movement, destruction of it from within, performance of century plans of masons - puritans on destruction of the main religious enemy - Russian Orthodoxy. Thus illuminate with pleasure destroyed also the old opponents - masons of orthodox views on behalf of nobility and intelligence. I. Stalin's dictatorship has etched Bolsheviks virus illuminate by continuous reprisals, thus having destroyed millions innocent victims. I believe, that reprisals of a Stalin mode also had the latent religious character. Probably, these reprisals were one of the first religious cleanings the newest time in Russia.

In view of these cleanings there is more clear a fact of that neither in the Higher school of KGB of the USSR, nor in Academies of Military Sciences, in Institute of the International Attitudes did not learn to take into account the factor of presence of groups of anonymous authority worldwide on behalf of Masonic and Puritan Lagoon for acceptance of any decisions. This theme after Stalin's death began tabu for all. During the further period, in the USSR the western anonyms have sent the new masons illuminaties. Most productive "destroyer" of system of the USSR from within became all known A. Jakovlev who fostered spiritual pupil M. Gorbachev with wife Raisa. This couple has finished the next stage of explosion from within system of godlessness existing in the USSR and atheism. The most surprising, that these personnel's count themselves « outstanding revolutionaries », managed without war will break a ridge of the idealistic project of a world freemasonry - the USSR. Having received social and theoretical lessons of construction of the multinational state, masons of Europe have carried out the centuries-old plan of Uniform Europe - the USSR number two. Even in quantity of republics have outdone - not 15, but 25 already, expansion proceeds.

At the same time, B. Yeltsin's democracy, which, probably, nobody devoted in secrets of a Freemasonry, and operated him by means of the representatives in the Government, Administration of the President, and also at the very least in the Duma, has led to orgy completely not Masonic establishment, and Puritan devilish liberalism. Not clear while in the image, masons, probably, the European awards, have educated, at last, B. Yeltsin that occurs at us in the country, yes so, that it has voluntary retired, having appointed the receiver of the graduate of the Higher school of KGB. Thus, in Russia to authority there came former and working employees of special services who, probably, did not suspect about centuries-old way of anonymous authority all over the world. I believe, that anybody did not devote them in these closed themes owing to their usual poverty and isolation from western "civilization". After the introduction into a post of the

new President of Russian Federation V.V. Putin attempts, probably, have been made, to enter the head of the state into any Masonic or Puritan awards. Causes concern the application of the President USA Dj. Bush about V.V. Putin, that it counts his good person because it at personal acquaintance has glanced to it in soul. Whether to count this application acknowledgement of dedication of V.V. Putin in a Puritan award in the USA it is obviously possible, since at us in Russia the President is exposed to continuous attacks from the party, both masons of various awards, and puritans and liberals of all colors.

Logically arguing, it is possible to assume, that "Peter's" or "fair" security officers were independently united in the closed organization, having formed own group of anonymous authority. It can « White Eagle », something can still. It is a clear step of a brotherhood of the security officers, typed information on domination of masons and puritans in all branches of authority, both Russia, and all world. To become the "present" group of anonymous authority to them the religious basis of association, by a lucky chance was necessary or to a historical plot, they have assumed as a basis Orthodoxy. Therefore in press to flash there were constantly word-combinations - "security officers - conformists". Besides the fact of merge or close cooperation of "security officers - conformists" with Orthodox Church, which is sated with priests from former military men and employees of special services is obvious. Anonyms of the Kremlin do not understand one, that Russian Orthodox Church, in particular its management, also is struck with masons and Jew clerics. Thus they put themselves in dependence on a world Freemasonry.

Remaining besides in a field of assumptions, it is possible to assert, that V.V. Putin's personal meetings with G. Bush, and also with his physical and confessor G. Bush Older, groups of anonymous authority V.V. have led to recognition to the last. Putin in exchange for a recognition of domination in the world of the Owner of universe G. Bush Older. Actually it means vassal dependence of the Kremlin on Satanists. Such script of succession of events puts all strangeness of last 4-5 years, and also plans of Russian Imperious elite for the future on the places. Thus the newly appeared group of anonymous authority has no historical traditions, the precise organization, ideology and prospects of development, having limited this association by an opportunity of group reception of money and to personal enrichments of the persons attached to a clan. Thus they count themselves unique force, which else asserts national interests of Russia both inside the country, and behind its boundaries. It and so, probably, they yet have not lost patriotism in monetary accounts and a luxury goods can.

Nevertheless, modern groups of anonymous authority in Russia are in ideological and political impasse.

« Kind wishes the road in a hell is paved » - this popular wisdom to the full concerns to groups of anonymous authority of Russia. With any noble purpose of protection of Russian people, Russia, Orthodoxy or an Islam the group of anonymous authority is created, all the same she is involved in illegal struggle against others, even other Russian or international groups of anonyms. Methods of this struggle or opposition pass in the category of terrorist methods. It is free or involuntarily "fair" anonyms become on one party with devilish groups and the organizations. The policy of Satanists that groups or people resisting, were involved by him in world terrorism also is designed for it and gradually became him similar.

Carrying out of explosions as destruction Jandorbiev, act of terrorism in Egypt against Jews and the Russian citizens before voting in Security Council (SC) of the United Nations on a question of the international terrorism with the subsequent carrying out through SC the United Nations of the necessary Russia of the resolution is a way to the Satan.

Performance of any secret operations, which have been not connected to protection of public military and political interests of Russia abroad is a version of world terrorism. For example, military or economic investigations are not connected to anonymous authority, as they do not bear religious painting. Why CIA or MI-7 became actually terrorist organizations, ruling cliques worth on service the USA and the Great Britain? The answer is extremely simple. These services are used for conducting religious cold war by groups of anonymous authority of the West, thus they are the departments of the state, which are taking place on financing from open sources. Therefore these budgets are secret, and the public has no opportunity to get acquainted with them.

Not surprisingly. These structures work not on people the USA or the Great Britain, and on religious Puritan extremists who in the weight are old men and former Presidents or high-ranking officials of these countries. Democracy in the USA has simply a rest.

If and further groups of anonymous authority in Russia will assimilate to the antipodes of the West they will be equal by people of Russia to helpers, to sponsors and nurseries of world terrorism at us in the country.

"Unity" just about will pass through the Duma the law on confiscation of property of the terrorist through court. Therefore in strict conformity with existing laws all members of groups of anonymous authority will be equal to terrorists that will lead to criminal prosecution and loss of property. Further it will be possible a criminal measure of punishment as deprivation of citizenship in Russia with the further deportation from the country.

There is a unique output from a developed situation. The groups of the anonymous authority, which have been not based on religious errors of Satanizm, should leave from a shadow and completely be

legalized by formation of new parties, political movements or the introduction into existing parties. Participants of such groups should declare publicly self-dissolution and bear on court of the public the political views and the program. Kuma's, clannishness, corruption and illegal methods of management of country, political parties and movements, church, the Government and Federal Assembly, imperious regional structures, mass media should remain in the past.

There are no bases for continuation of existing system of anonymous authority as she gets the country in a bog of stagnation, a genocide of own people, destruction of religion and morals, plunder of natural and spiritual riches of Russia. In result the anonymous authority becomes a part of world plot against Russia and the pity tool in their devilish hands. The anonymous authority should realize necessity of voluntary transition to open, public authority. Otherwise people will make it for you.
